

**North Carolina Department of Commerce
Division of Employment Security**

Quality Control Unit

Date: October 11, 2018

Batch No.
SS No.:

Dear ,

Your claim is among those selected at random as part of a statewide Unemployment Insurance Quality Control Program. The program is used to determine if unemployment insurance is being properly administered in accordance with state law, regulations and policy.

This review is being conducted to look at the correctness of the decision to deny you benefits. Your denial determination is one of a number picked at random to assess program quality. *It was not selected because we have reason to suspect that the decision is in error.*

Please complete the enclosed questionnaire and return within seven (7) days in the enclosed postage paid envelope. The answers you provide will be a valuable tool in our assessment of program quality. If you have any questions, please contact me at the number shown below. Your cooperation is appreciated.
